# **2003 Statewide Annual Licensure Report**

## **Introduction**

This report provides licensure examination results for two-year technical associate degrees, and one-year certificate programs, leading to professions requiring licensure or certification. The Texas Higher Education Coordinating Board uses this information as part of its overall assessment of the effectiveness of vocational education programs at community and technical colleges in the state.

In the spring of 1997, the Coordinating Board and the Legislative Budget Board expressed an interest in using licensure data as a specific performance measure of programs at community and technical colleges. Effective September 1, 1997, the 75<sup>th</sup> Texas Legislature enacted House Bill 2517 requiring public community colleges to annually report on nine performance measures. One of these measures is the percentage of students who pass a licensure exam.

Licensure is mandated by state law. It offers practitioners title protection and defines the scope of practice for a field. Licensure examinations ensure an individual possesses the competence necessary for a specific profession. By testing, the state or professional organization that awards the license helps to safeguard the public from injury by the practitioner.

Certification is not legislatively mandated and is offered through non-governmental agencies and associations. As with licensure exams, certification exams ensure competence within a given field or profession. A certifying body grants recognition of an individual's attainment of defined professional qualifications and continuing education efforts.

The Coordinating Board recognizes that the success rate for licensure and certification is an integral part of the overall success of many workforce development programs. This report contributes to the process of continuous improvement and scholastic accountability in Texas community and technical colleges.

## Methodology

In June 2003, Coordinating Board staff contacted the agencies and professional organizations responsible for licensure or certification testing in order to obtain information for the *Statewide Annual Licensure Report*. Staff requested that agencies and professional organizations provide results for examinations administered in the 2001-2002 academic year. The requested data included the number of individuals from each school who took the licensure/certification exam, and the number who passed. The public community and technical college programs included in this report have been approved by the Coordinating Board. There is, however, one exception. All listed alternative teaching certification programs have been approved by another state agency, the State Board for Educational Certification (SBEC).

The 2003 *Statewide Annual Licensure Report* includes data on the following forty-five licensure/certification examinations:

- Aircraft Mechanic – Airframe, General, Powerplant

## Limitations

Many programs are not included in the Annual Licensure Report due to various limitations. Many state agencies and professional organizations do not track licensure examination results by the college a candidate attended. Several agencies were only able to provide incomplete licensure data. Other programs were excluded from this year's report due to the Coordinating Board's decision to refrain from collecting licensure information directly from the community colleges. Additionally, several agencies now charge fees ranging from \$13 to \$790 to generate licensure data reports. The licensure/certification programs that have inclusion limitations are as follows:

- **Air Conditioning and Refrigeration Contractor**  
The Texas Department of Licensing and Regulation maintains data on this profession, but does not currently track each candidate's education records. Though training is offered at community colleges, college coursework is not required to become a licensed contractor.
- **Automotive Technician**  
The National Institute for Automotive Service Excellence (NIASE) certifies candidates in this field. While many public community and technical colleges offer automotive technician training programs, NIASE does not have minimum education requirements for its candidates.
- **Cardiovascular Technologist**  
The certifying organization for this field, Cardiovascular Credentialing International, does not maintain data on a candidate's training institution.
- **Diagnostic Medical Sonographer**  
The American Registry of Diagnostic Medical Sonographers (ARDMS) is responsible for licensure in this field. ARDMS does not maintain education data on examinees, and requires the social security numbers of candidates in order to process reports.
- **Dental Hygienist**  
Although two exams are required for licensure, the 2003 Annual Licensure Report only maintains data on the clinical portion of the Dental Hygiene exam. The organization administering the national exam, the American Dental Association, does not release information to third parties.
- **Health Information Management Technician**  
The American Health Information Management Association maintains examination data for this field. AHIMA policy does not allow information to be released to third parties. Certification in this field is voluntary.
- **Horse Trainer**

While North Central Texas College offers a program in Equine Science, the Texas Racing Commission does not require any formal coursework for licensure in this field.

- **Insurance Agent/ Adjuster**

The Texas Department of Insurance, the licensing body for this field, does not maintain education records for insurance agent candidates.

- **Interior Designer**

Neither the Texas Board of Architectural Examiners (TBAE) nor the National Council for Interior Design Qualification (NCIDQ) compiles data on a candidate's educational experience.

- **Landscape Irrigation**

The Texas Commission on Environmental Quality does not track exam information by training provider.

- **Legal Assistant / Paralegal**

Certification in this field, through the National Association of Legal Assistants and the National Federation of Paralegal Associations, is voluntary.

- **Loan Officer / Mortgage Broker**

The Texas Savings and Loan Department is responsible for licensure in this field. No examination is required for licensure, which is based on education and experience only.

- **Medical Laboratory Technician**

Though the American Society of Clinical Pathologists (ASCP) participated in the 2001 Annual Report, their policies have changed. In order to generate the exam performance statistics requested by the Coordinating Board, ASCP now requires the prior receipt of a reporting fee.

- **Medication Aide**

The Texas Department of Health's Long Term Care Regulatory Credentialing Department is responsible for certification in this field. The agency does not collect information specific to each public college that offers the medication aide training program.

- **Microsoft Certified Professional**

Microsoft Certification Programs reports that their database does not capture pass/fail rates for individual institutions.

- **Municipal Solid Waste Operator**

The licensing body for this profession, the Texas Commission on Environmental Quality, does not currently have the tracking capabilities necessary to participate in the licensure report.

- **Nursing Facility Administrator**  
The Texas Department of Human Services does not track education data on their candidates.
- **Ophthalmic Technician / Assistant**  
The Joint Commission on Allied Health Personnel in Ophthalmology administers the licensure examination for this field. According to the JCAHPO, no students took the certification exam during the time period covered in the report.
- **Optician / Contact Lens Fitter**  
Certification in these fields is voluntary. The American Board of Opticianry and the National Contact Lens Examiners, the organizations responsible for certification, were unable to provide state or college-level data on their examinations.
- **Optometric Technician**  
The American Optometric Association does not track licensure exam data for individual institutions or states.
- **Orthotist / Prosthetist Assistant**  
The licensing agency in this field, the Texas Board of Orthotics and Prosthetics, does not require candidates to take an examination.
- **Phlebotomist**  
Certification in this field, offered through multiple organizations, is voluntary.
- **Real Estate Appraiser**  
The Texas Appraiser Licensing and Certification Board does not track data based on courses taken or college attended. Many Real Estate Appraiser candidates take coursework through multiple training providers, including trade associations, proprietary schools, internet/distance-based courses, as well as community/technical colleges and universities.
- **Real Estate – Inspector, Sales Agent, Broker**  
The Texas Real Estate Commission does not maintain records on the education background of its candidates.
- **Respiratory Care Practitioner**  
The National Board for Respiratory Care does not release examination information to third parties. The Texas Department of Health Respiratory Care Practitioners Certification Program does not maintain records on a licensee's credentials.
- **Social Work Associate**  
The Association of Social Work Boards (ASWB) administers licensure in this field. ASWB charges a report fee, and requires receipt of the payment prior to releasing data.

- **Surgical Assistant**

The Texas Board of Medical Examiners has not begun licensing surgical assistants. The agency will participate in the 2004 Licensure Report.

- **Tax – Examiner, Collector, Revenue Agent**

The Board of Tax Professional Examiners does not collect data on the educational background of their candidates.

- **Truck Driver- Professional**

The Texas Department of Transportation, which administers the state licensing exam, does not maintain educational data on students. The Texas Workforce Commission also does not track the educational background of these drivers.

- **Wastewater Operator**

The Texas Commission on Environmental Quality maintains licensure information on this field. However, TCEQ does not track licensure information by training provider, college, or employer.

- **Water Operator**

The Texas Commission on Environmental Quality does not have the resources required to process licensure data by institution. The agency is upgrading their database systems within the next year, so future participation in the licensure report is possible.

## Explanatory Notes for Tables

<b>CIP Code</b>	The Classification of Instructional Programs (CIP) is a federal taxonomy developed by the U.S. Department of Education. It is used throughout the nation by government agencies and professional associations to establish standard terminology and record-keeping. The six-digit identification number of the instructional program includes both Technical and Tech Prep programs under the same program code.
<b>Dates</b>	Dates reflect the annual reporting deadlines to which the institutions must adhere. All testing during the period beginning with the fall semester and through the following summer semester is reported in the fall after the summer semester.
<b>FICE Code</b>	The Federal Interagency Commission on Education (FICE) six-digit identification number for an academic institution. Any colleges with one FICE code but multiple course work sites were aggregated into one name.
<b>Institution</b>	Name of an institution that offered the particular instructional program.
<b>Licensure Exam</b>	Title of the licensure examination. Not necessarily equivalent to the title of the instructional program to which the examination relates.
<b>Passed</b>	Number of students who passed the particular licensure examination. This information normally comes from the agency that administers the licensure examination.
<b>Program</b>	An organized unit of instruction directly related to the acquisition and/or upgrading of technical skills and for which a Coordinating Board-approved certificate or an applied associate degree is awarded.
<b>Reporting Agency</b>	An external agency, which grants authorization to practice in a particular occupational field after passage of a formal examination relating to that specific field.
<b>Tested</b>	Number of students who took the particular licensure examination. This information normally comes from the agency that administers the licensure examination.

Twelve public community colleges offer Aircraft Maintenance Technology programs. Prior to the 2003 Annual Report, an Aircraft Maintenance Technician was noted as an Aircraft Mechanic. The Federal Aviation Administration monitors aircraft maintenance technology training school standards for the 300-hour General curriculum training program, and for the 750-hour Airframe or Powerplant curricula. Candidates must pass the General examination with a minimum score of 70. Once a candidate has passed the General examination, he/she may then take a specialist examination for Airframe or Powerplant certification. Both of these exams also maintain a minimum passing standard of 70 percent.

Two public community college programs offer programs in Industrial Technology. Alternative teacher certification requires students to possess a bachelor's degree prior to enrolling. Candidates must pass SBEC's proficiency exam in the appropriate subject area. The current exam, the Examination for the Certification of Educators in Texas (ExCET), will be replaced in fall 2003 with the Texas Examination of Educator Standards (TExES) to reflect recent initiatives implemented in curriculum standards.

The ExCET was scale scored and had a floating passing standard that varied among disciplines. All TExES exams will have a scale-scored passing standard of 240.

Central Texas College is the only Texas public community college currently offering this program. Applicants take a written examination and a six-section practical demonstration. Minimum passing scores on the written examination and the six individual practical demonstrations are 70 percent. An applicant must pass the written examination and all sections of the practical demonstration in order to receive a license. As the sole community college barber preparation program, licensure data was obtained directly from the institution. This is an exception to the THECB decision to only collect data from licensing organizations.

Certification in this field requires candidates to pass both a written and practical exam. The written exam consists of 100 true/false and multiple-choice questions based on curriculum topics and objectives, with a minimum passing score of 75. The practical exam requires candidates to demonstrate competence in administering Breath Tests to five simulated DWI subjects; analyzing and obtaining results from the test samples; and properly completing all required records and/or reports. An examinee must score a 100 percent

on the practical exam, or retest with an additional five subjects and score a 100 percent on the second exam.

The reporting categories in this field were revised for the 2002 Annual Report. Previously, all levels of licensure were reported under one heading: Emergency Medical/Paramedic. In order to more accurately document licensure exam performance, each level of certification is now reported separately. The pass rates from the 2000 and 2001 Annual Reports have been revised to reflect this separation. Fifty-one public community colleges offer programs in this field.

The EMT-Basic curriculum is composed of 140 classroom, laboratory, clinical, and field hours and is a prerequisite for both the EMT-Intermediate and Paramedic programs. The EMT-Intermediate curriculum is composed of 160 classroom, laboratory, clinical, and field instruction. Every EMT (Basic and Intermediate) must pass the National Registry written exam, which consists of 150 multiple-choice questions. These two levels of emergency medical technology are certificate programs.

The Paramedic program, consisting of at least 624 hours of classroom, laboratory, clinical, and field instruction, can result in either an associate's degree or certificate. Paramedics must pass both the National Registry written exam, which consists of 180 multiple-choice questions, and the practical examination, which tests twelve skills.

The passing standard for all exams is 70 percent. EMT-Basic and EMT-Intermediate must have an overall score of 70 percent to pass. The Paramedic must pass five of the six subscales on the Paramedic exam. The subscale the Paramedic may fail is "Operations."

In 2002, the Texas Board of Professional Land Surveying changed the way it reported licensure exam data to the Coordinating Board. Previously, pass rate data was supplied for the licensure exam as a whole. Information is supplied for the analytical and legal portions of the exam, and total pass rates are no longer given. The Texas BPLS conducts two, four-hour multiple choice examinations on the legal and analytical standards for the profession. The Board uses a scaled-score to determine competency on each examination, which is converted to a minimum passing score of 70 percent. Twelve community colleges offer programs in land surveying.

**Law Enforcement Data Reorganization**

- Law Enforcement licensure data had been reported prior to the 2001 Licensure Report using the following codes:
  - 1000/1004 – Basic Peace Officer Academy CIP 43.0107
  - 1005/1006/1007 – Basic Corrections Academy CIP 43.0102
  - 1011 – Basic Peace Officer Academic CIP 43.0104
- In 2001, the Texas Commission on Law Enforcement Officer Standards and Education changed the way it reported licensure data to the Coordinating Board. The codes 1005/1006 – Basic Corrections Academy are now inactive reporting numbers, and the remaining codes are not used in reporting licensure information. For the 2001 Licensure Report, new reporting categories were created, but were not matched with the data from previous years. Those categories were:
  - Academy Peace Officer CIP 43.0107
  - Academic Peace Officer CIP 43.0104
  - Academy Corrections CIP 43.0102
  - Academic Corrections CIP 43.0102
- In order to more accurately track licensure data, the 2002 Licensure Report reorganized all law enforcement data from prior years into the following categories:
  - Corrections – Academic CIP 43.0102
    - Includes data from Academic Corrections
  - Corrections – Academy CIP 43.0102
    - Combines 1005/1006/1007 data with Academy Corrections

    - Combines 1011 data with Academic Peace Officer

- Peace Officer – Academy CIP 43.0107

According to the Texas Department of Health (TDH), certified Medical Radiologic Technologists include all practitioners in diagnostic radiography, nuclear medicine, and radiation therapy. Texas state law requires practicing Medical Radiologic Technologists to have completed an accredited training program and pass a TDH approved examination like that administered by the American Registry of Radiological Technologists (ARRT). Each certification examination conducted by the ARRT contains two hundred questions. A scaled score of 75 is required to pass an exam. The use of scaled scores takes into account the differences in exam difficulty such that a scaled score corresponds to the same level of competence regardless of exam administration date. Twenty-five public community colleges offer an associate degree or a certificate in Medical Radiologic Technology.

Three colleges offer an associate degree or certificate in Nuclear Medicine Technology. Licensure examinations for this field are offered through both the American Registry of Radiologic Technologists (ARRT) and the Nuclear Medicine Technology Certification Board (NMTCB).

The ARRT exam consists of two hundred questions covering the topics of radiation protection, radionuclides and radiopharmaceuticals, instrumentation quality control, diagnostic procedures, and patient care and management. Scores are scaled from 1 to 99, and a minimum scaled-score of 75 is required to pass.

NMTCB offers a competency-based, computer-adaptive examination covering the topics of radiation safety, instrumentation, clinical procedures, and radiopharmacy. The exam has a maximum of ninety questions, and scores are criterion-referenced. Passing standard is usually 70, but depends on a candidate's performance on the four sub-categories.
